Client(s): Students are those who are looking for a career in aged

Delivery and Assessment arrangement

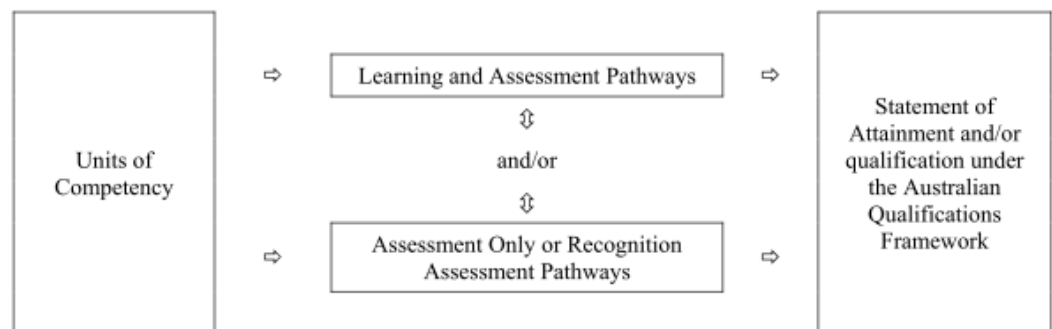

Duration: The program is delivered over a period of sixteen weeks plus 160 hours of practical placement in an aged care facility.

Organisation The program is delivered in the class room. Combining classroom and self directed learning activities. The program has been organized to provide students with general skills, background information and specific knowledge about the aged care industry, which is then applied in discussion, questioning, role-plays and projects for the industry specific units.

Pathways:

Assessment under the Health Training Package leading to an AQF qualification or Statement of Attainment may follow a learning and assessment pathway, an assessment pathway, an assessment –only or recognition pathway, or a combination of the two as illustrated in the following diagram.

Each assessment pathway leads to full recognition of competencies held – the critical issue is that the candidate is competent, not how the competency was acquired. Assessment, by any pathway, must comply with the assessment requirements set out in the Assessment.
