Diploma of Leisure and Health

Health Skills Australia is committed to making a positive difference to the lives of people in care by providing excellence in healthcare training. Established in 2005 and acquired by Navitas Limited in May 2010, we are a Registered Training Organisation (RTO) recognised as a specialist educator in the field of healthcare.

Why study this course?

This program is designed to provide students with professional skills to help support people with special needs live a more fulfilling and productive life.

In this course you will learn how to assess the needs of individuals and devise, implement and monitor personalised health and leisure plans.

This course is also ideal if you are looking for promotion in other areas of disabilities, juvenile justice and disadvantage, or would like to become a diversional therapist.

Who should study this course?

This course is suitable for those currently working in the field of leisure and health in aged care, nursing or those who are looking for a career in these areas. The ideal student is one who has some responsibilities for activities and providing services directly to clients, management of programming, financials and resources for diversional therapies, or whose workplace can provide opportunities to practice the skills encompassed in the course.

Career outcomes

With this certification, some occupations may include:

- Activities Coordinator
- Diversional Therapy Assistant
- Community Leisure Officer
- Leisure Services Coordinator / Manager
- Diversional Therapist
- Recreation Activities Officer / Coordinator

Further study opportunities

Articulation is possible to the Diploma or Degree level programs in Nursing, and this is assessed on an individual basis by the educational provider.

Entry requirements

Students are required to either have the Certificate IV Leisure and Health or undertake the compulsory units of this qualification.

Delivery style

The program is delivered either on the job or in the classroom. Training delivery combines face-to-face trainer led theory classes, and practical sessions involving small group and individual activities with what if scenarios, questioning, role-plays and simulations.

Duration

The program is delivered over a period of 96 weeks.

Workload

Workload varies depending on course dates and locations. Contact us for more information.

Recognition of Prior Learning (RPL)/Recognition of Current Competency (RCC) or Credit Transfer (CT)

RPL, RCC or CT may be granted to students who have completed units of competency that directly match the Health Training Package units. This will be reviewed on an individual basis and you must apply using the appropriate forms and include all the necessary supporting documentation. A fee also applies for this assessment.

Cost

Course fees vary by state and are based on a number of different factors. There are also several government funding programs available that may help with the cost of tuition, or we can assist you with arranging an individual payment plan.

Call us to discuss the most appropriate funding options for you.

Assessments

A variety of methods are used throughout this course such as presentations, class discussions, assignments, practical demonstrations, short tests, essays, workbooks and case studies. Each unit is assessed in the classroom / practical lab and in the clinical setting to determine a student is competent against the elements and performance criteria.
