

PracSoft is Australia's most popular practice management software.

More than 3,500 practices nationwide manage their practice workflows using our software.

PracSoft lets you run your practice efficiently, allowing you more time to spend on patient interaction. PracSoft installed with Medical Director provides the full suite of leading practice management and clinical tools required for today's busy practice.

Practice Management

PracSoft is the practice management solution that covers all the essential needs of a modern practice. Appointments, billing, claiming, reporting and other essentials are all provided in this comprehensive software package. PracSoft is used in a variety of settings ranging from general practice, specialist practice, Allied Health and hospitals and is also suitable to use in many other practice settings. PracSoft includes comprehensive patient file screens, straight-forward patient accounting, 14 customisable fee columns, easy lodging of Medicare and Veterans Affairs claims, multiple bank accounts with nine levels of security, statements for institutional and private patients, and an extensive reporting module. Streamlined claiming solutions in PracSoft have never been easier. Standard features of PracSoft are Medicare Australia Online Claiming, DVA Streamlined claiming and Integrated Medicare Easyclaim (Medicare's EFTPOS based claiming solution). The unique combination of Online and Integrated Easyclaim in PracSoft is now used by the majority of our customers to provide the best claiming method for individual practice and patient needs. Claiming is easy, saves the practice staff time, and it is also very convenient for your patients.

Billing

PracSoft looks for opportunities to maximise your billing capabilities and ensures accurate billing. It allows thorough checking of amounts charged at close of business, proactively warns of outstanding accounts when booking appointments and reminds reception that there is money owing when a patient arrives in reception.

Integrated EFTPOS

PracSoft users can benefit from easy processing of payments through the Integrated EFTPOS functionality in PracSoft. Integrated EFTPOS delivers many benefits to the busy practice – quick, easy payment processing and no re-keying of information. Currently PracSoft integrates with Tyro EFTPOS terminals.

SMS Reminders

SMS Reminders is a cost effective method of communication with your patients. Whether it's reminding your patients about their appointments or to alert patients to services or

as a reminder for seasonal visits such as influenza vaccinations. SMS is fast, easy and saves you time – it has become one of the most popular methods of communication today. Simply register, purchase credits and start sending your SMS reminders.

Easy to Use and Modern Interface

PracSoft has recently undergone a 'facelift'. The modern, new user interface is easy to navigate and requires very little training and has been designed to suit Australian medical practice workflows in consultation with professional medical practice staff. All HCN products are designed to ensure 'minimal clicks' to suit time poor medical professionals.
